THE QUARTERLY REVIEW OF BIOLOGY
Editor-in-Chief: Daniel E. Dykhuizen
Editors: James D. Thomson, John J. Wiens, and Gregory A. Wray
Published in association with Stony Brook University
The premier review journal in biology, The Quarterly Review of Biology has presented insightful historical, philosophical, and technical treatments of important biological topics since 1926. The QRB publishes outstanding review articles of generous length that are guided by an expansive, inclusive, and often humanistic understanding of biology. Beyond the core biological sciences, the QRB is also an important review journal for scholars in related areas that include policy studies and the history and philosophy of science. A comprehensive section of reviews on new biological books provides educators and researchers alike with information on the latest publications in the life sciences.

Audience: Researchers, educators, and students throughout the biological sciences.

Four issues/year
170 pages/issue Founded: 1926
