

**THE HISTORY OF CARTOGRAPHY**

VOLUME TWO, BOOK ONE

THE HISTORY OF CARTOGRAPHY

1

*Cartography in Prehistoric, Ancient, and Medieval Europe  
and the Mediterranean*

2.1

*Cartography in the Traditional Islamic and  
South Asian Societies*

2.2

*Cartography in the Traditional East and Southeast Asian Societies*

3

*Cartography in the Age of Renaissance and Discovery*

4

*Cartography in the Age of Science, Enlightenment, and Expansion*

5

*Cartography in the Nineteenth Century*

6

*Cartography in the Twentieth Century*

THE HISTORY OF CARTOGRAPHY

VOLUME TWO, BOOK ONE

*Cartography in the  
Traditional Islamic and  
South Asian Societies*

*Edited by*

J. B. HARLEY

*and*

DAVID WOODWARD

*Associate Editors*

JOSEPH E. SCHWARTZBERG

GERALD R. TIBBETTS

*Assistant Editor*

AHMET T. KARAMUSTAFA

J. B. Harley was professor of geography  
at the University of Wisconsin—Milwaukee.

David Woodward is professor of geography  
at the University of Wisconsin—Madison.

ISBN 0-226-31633-5 (v. 1)  
ISBN 0-226-31635-1 (v. 2, bk. 1)

To Brian

We shall not cease  
    *from exploration*  
And the end of all our exploring  
Will be to arrive where we started  
And know the place  
    *for the first time.*

List of Illustrations	xi		
Preface, <i>J. B. Harley and David Woodward</i>	xix		
<b>PART ONE Islamic Cartography</b>			
<b>1 Introduction to Islamic Maps,</b> <i>Ahmet T. Karamustafa</i>	<b>3</b>		
Greek Heritage			
Map and Text			
Conditions of Map Production			
Theory and Practice			
Terms			
Historiography			
<b>2 Celestial Mapping, <i>Emilie Savage-Smith</i></b>	<b>12</b>		
Early Syrian Origins			
Planispheric Astrolabes as Celestial Maps			
Early History of the Astrolabe			
Variants of Planispheric Astrolabes			
Extended Use of Astrolabic Mapping			
Al-Bīrūnī on Celestial Mapping			
Additional Planar Mapping			
Three-Dimensional Celestial Mapping			
Spherical Astrolabes			
Celestial Globes			
The Manufacture of Celestial Globes			
Armillary Spheres			
Mapping of Individual Constellations and Asterisms			
The Pre-Islamic Astronomic System			
Lunar Mansions			
Islamic Constellation Iconography			
Islamic Asterism Mapping and Its Influence in Europe			
Personifying and Allegorical Interpretations of Celestial Bodies			
The Introduction of Early Modern European Celestial Mapping			
<b>3 Cosmographical Diagrams,</b> <i>Ahmet T. Karamustafa</i>	<b>71</b>		
Scope			
		Cosmology in Islam	
		General Characteristics of Cosmographical Maps and Diagrams	
		Exoteric Realism: Philosophical and Scientific Diagrams	
		Celestial Diagrams	
		Geographical Diagrams	
		Esoteric Speculation: Gnostic and Mystical Diagrams	
		Gnostic Diagrams	
		Mystical Diagrams	
		Religious Cosmography	
		<b>Early Geographical Mapping</b>	
		<b>4 The Beginnings of a Cartographic Tradition,</b> <i>Gerald R. Tibbetts</i>	<b>90</b>
		Introduction	
		Early Geographical Literature	
		Foreign Geographical Influence	
		The Map of the Caliph al-Ma'mūn	
		Geographical Tables	
		Longitude and Latitude Tables: Al-Khwārazmī, al-Battānī, and Ptolemy	
		Al-Khwārazmī's Methods and Purpose	
		The Length of the Mediterranean	
		The Seven Climates and Their Boundaries	
		Prime Meridians	
		Suhrāb's Construction of a Map	
		The Maps from the al-Khwārazmī Manuscript	
		Conclusion	
		<b>5 The Balkhī School of Geographers,</b> <i>Gerald R. Tibbetts</i>	<b>108</b>
		Works of the Balkhī School	
		The Maps of the Balkhī School	
		Description of the Maps	
		Selection of Material	
		The Treatment of the Persian Provinces	
		The Arabic-Speaking Provinces	
		The World Map	
		Al-Muqaddasī's Maps	
		Miscellaneous Manuscripts Belonging to the Balkhī School	
		Conclusion	

- 6 Later Cartographic Developments,  
*Gerald R. Tibbetts* 137  
Later Recensions of Ibn Ḥawqal's Maps  
The *Ḥudūd al-'ālam*  
Later Tables and al-Bīrūnī  
Later Geographical Writers  
Thirteenth-Century and Later World Maps  
Climatic Maps and Their Variants  
First Use of a Graticule  
Other Maps  
Conclusion
- 7 Cartography of al-Sharīf al-Idrīsī,  
*S. Maqbul Ahmad* 156  
Al-Sharīf al-Idrīsī as a Mapmaker  
The *Nuzhat al-mushtāq fī'khtirāq al-āfāq*  
Publications and Translations  
Al-Idrīsī's Instructions for Making a World Map  
Writing the *Nuzhat al-mushtāq*  
Maps in the *Nuzhat al-mushtāq*  
The *Rawḍ al-faraj wa-nuzhat al-muhaj*  
The Sources for al-Idrīsī's *Nuzhat al-mushtāq*  
The Influence of al-Idrīsī's Work on Later Authors
- 8 Geodesy, *Raymond P. Mercier* 175  
Introduction  
Arabic Metrology  
Measurements of the Length of a Degree  
Al-Bīrūnī's Measurement of the Radius of the Earth  
Determining the Longitude of Ghazna
- 9 Qibla Charts, Qibla Maps,  
and Related Instruments,  
*David A. King and Richard P. Lorch*  
189  
Introduction  
Qibla Charts Centered on the Ka'ba  
Qibla Maps Based on Coordinates  
Methods of Qibla Determination with Spheres and  
Astrolabes
- Premodern Ottoman Geographical Mapping**
- 10 Introduction to Ottoman Cartography,  
*Ahmet T. Karamustafa* 206  
Scope and Organization  
Terminology  
Problems in the Study of Ottoman Cartography
- 11 Military, Administrative, and Scholarly Maps and  
Plans, *Ahmet T. Karamustafa* 209  
Cartography in the Service of the State  
Origins  
Military Maps

Architectural Plans and Waterway Maps  
Cartography as Private Enterprise  
World Maps  
Regional Maps

- 12 Itineraries and Town Views in Ottoman Histories,  
*J. M. Rogers* 228  
The Compilation of Illustrated Histories  
Early Examples of Topographical Illustration in  
Ottoman Texts  
Topographical Illustration in the *Mecmū'a-i menāzil*  
Topographical Illustration in Later Ottoman Histories

### Marine Charting

- 13 The Role of Charts in Islamic Navigation in the  
Indian Ocean, *Gerald R. Tibbetts* 256
- 14 Islamic Charting in the Mediterranean,  
*Svat Soucek* 263  
Introduction  
Arab Portolan Charts  
Piri Re'is  
Charts of the New World  
*Kitāb-i bahriye*  
Ottoman Portolan Charts and Atlases  
The al-Sharafi al-Şifāqsi Family

### PART TWO South Asian Cartography 293

- 15 Introduction to South Asian Cartography,  
*Joseph E. Schwartzberg* 295  
The State of Our Knowledge  
Published Writings  
Repositories for Indian Cartography  
The Nature of the Indian Corpus as Revealed by  
Textual Sources and the Archaeological Record  
Types of Materials Produced  
Prehistoric and Tribal Maps  
Achievements of the Harappan Culture  
Vedic Altars  
Ancient Knowledge of Geography  
Evidence of Ancient Cosmographies  
Indian Astronomy  
Surveying in the Mauryan Empire  
Architectural Plans from Ancient and Medieval India  
Maps Noted in Secular Texts  
*Paṭa-chitras*  
Fruits of Hindu-Muslim Interaction  
European Accounts of Indian Mapping  
Reasons for the Relative Paucity of South Asian  
Maps

- 16** Cosmographical Mapping,  
*Joseph E. Schwartzberg* 332  
 Underlying Cosmological Conceptions  
 Cosmographies in the Hindu Tradition  
 Paintings and Ink Drawings Not Primarily  
 Astronomical in Content  
 Cosmographic Globes  
 Celestial Mapping  
 Cosmographies: The Jain Tradition  
 Indo-Islamic Cosmography  
 Microcosmic Analogues of the Cosmos  
 Cosmography and Mental Maps
- 17** Geographical Mapping,  
*Joseph E. Schwartzberg* 388  
 World Maps  
 Topographic Maps  
 Mughal Maps  
 Late Premodern Maps from Various Regions  
 Kashmir  
 Rajasthan and Gujarat  
 Braj  
 Central India  
 Maharashtra and Other Areas of Maratha Activity  
 Sri Lanka  
 Northeastern India  
 Hybrid Maps and the Gentil Atlas
- Late Eighteenth- and Nineteenth-Century Nepali  
 Maps  
 Route Maps  
 Large-Scale Maps, Plans, and Maplike Oblique Views of  
 Small Localities  
 Maps of Small, Primarily Rural Localities  
 Secular Plans of Cities and Towns  
 Oblique Secular Representations of Cities and Towns  
 Maps of Sacred Places  
 Maps of Forts  
 Architectural Drawings
- 18** Nautical Maps, *Joseph E. Schwartzberg* 494
- 19** Conclusion, *Joseph E. Schwartzberg* 504
- 20** Concluding Remarks,  
*J. B. Harley and David Woodward* 510  
 Comparative Cartographies  
 Cartography and Society  
 Future Agendas
- Editors, Authors, and Project Staff 519
- Bibliographical Index 521

 Services* 547

# Illustrations

## with Tables and Appendixes

COLOR PLATES		
	(Following page 136)	
1	The heavens as they were on 3 Rabi <sup>c</sup> I 786/25	27
2	April 1384, the birthdate of Iskandar Sultan	28
3	Planispheric map showing northern constellations	29
4	The religious cosmos from the <i>Ma<sup>c</sup>rifetnāme</i>	30
5	Al-Khwārazmī's map of the river Nile	31
6	The Sea of Azov (Baṭā'ih Māyūṭis) by al-Khwārazmī	32
7	North Africa and Spain according to an Iṣṭakhri I manuscript	33
8	The world according to al-Iṣṭakhri	34
9	The world map of Ibn al-Wardī	35
10	Al-Qazwīnī's world map	36
11	World map dated 977/1570	37
12	Al-Idrīsī's world map from the Oxford Pococke manuscript	38
13	Northwest Africa from the Oxford Greaves manuscript of al-Idrīsī	39
14	Qibla diagram from a sea atlas by al-Sharafī al-Ṣifāqsi	40
15	Siege plan of Belgrade, early sixteenth century	
16	Plan of the battle of the Prut, 1711	
17	Detail of the Kırkçeşme and Halkalı water-supply system	
18	The proclamation of the conquest of Eger	
19	View of Sulṭāniye from Maṭrākçi Naşūḥ's <i>Mecmū<sup>c</sup>a-i menāzil</i>	
20	The siege of the fortress of Esztergom	
21	View of Nice from Maṭrākçi Naşūḥ's <i>Tārīḥ-i fetḥ-i Şaklāvūn</i>	
22	Northwest fragment of the 935/1528–29 world map by Piri Re'is	
23	Version 2 of the <i>Kitāb-i bahriye</i> : Island of Euboea	
24	Walters <i>Deniz Atlası</i> : Italy and the central Mediterranean	
25	Al-Sharafī al-Ṣifāqsi chart, 1579	
	(Following page 424)	
26	Vishvarupa, the universal form of Krishna	
27	Table of asterisms ( <i>nakṣatras</i> )	
28	Anthropomorphic representation of the Jain universe	
29	Detail of an eclectic world map	
30	Geographic portion of Hindu cosmographic globe	
31	Braj yatra <i>pichhvāi</i>	
32	Sections from a Mughal scroll route map from Delhi to Kandahar	
33	Map of Srinagar embroidered on wool	
34	Map of Jodhpur painted on paper	
35	Shrinathji temple complex	
36	Jagannath temple and city of Puri, Orissa	
37	<i>Tirthas</i> in Kashmir	
38	A siege at Bhiwai Fort, Sikar District, Rajasthan	
39	Diwali celebrations at the royal palace at Kotah, Rajasthan	
40	Detail of the Red Sea and Aden from a nautical chart	
	FIGURES	
2.1	The remains of the vault of the heavens	13
2.2	Planispheric map of the heavens from a fifteenth-century Byzantine manuscript	14
2.3	The Byzantine planispheric map analyzed as a stereographic projection from the south pole of a celestial globe	15
2.4	A planispheric map of the heavens in a Latin copy of the <i>Aratea</i> dated A.D. 818	17
2.5	Planispheric astrolabe made in the late ninth century A.D. by Khafif, the apprentice of 'Alī ibn 'Īsā	19
2.6	An astrolabe made in 1060/1650 by Ḍiyā' al-Dīn Muḥammad	20
2.7	Polar stereographic projection of the basic features of an astrolabe rete	21
2.8	The stars on the astrolabe rete made in Lahore by Ḍiyā' al-Dīn Muḥammad in the year 1060/1650	22
2.9	Basic design of an astrolabe plate	24
2.10	Astronomers at work	27

- 2.11 Schematic interpretation of al-Zarqello's design for a universal astrolabe to be used at any geographic latitude 30
- 2.12 A universal astrolabe of the type designed by al-Zarqello 31
- 2.13 A type of universal astrolabe called *shakkāziyah* 31
- 2.14 The universal astrolabe designed by Ibn al-Sarrāj in the early fourteenth century 32
- 2.15 A wooden astrolabic quadrant for latitude 41° 32
- 2.16 A unique astrolabe/mechanical, geared calendar 33
- 2.17 Reverse side of the astrolabe shown in figure 2.16 33
- 2.18 Reconstruction of al-Birūnī's "cylindrical" projection 35
- 2.19 Reconstruction of al-Birūnī's projection for a "flattened" astrolabe 36
- 2.20 Reconstruction of al-Birūnī's preferred method for producing a star map 37
- 2.21 Waxing and waning of the moon as illustrated in the *Kitāb al-tafhīm li-awā'il šinā'at al-tanjīm* by al-Birūnī 38
- 2.22 Diagram from an autograph copy of *Kitāb al-durar wa-al-yawāqīt fī 'ilm al-rašd wa-al-mawāqīt* by Abū al-'Abbās Aḥmad 39
- 2.23 The sphere or orbit of the sun and the personification of the planet Venus as a lutenist 40
- 2.24 Design for a clockface from *Kitāb fī ma'rifat al-Ḥiyal al-handasiyah* 40
- 2.25 Spherical astrolabe made by Mūsā in 885/1480–81 41
- 2.26 Basic design of extant Islamic celestial globes, with attached rotatable meridian ring 44
- 2.27 The earliest preserved Islamic celestial globe 45
- 2.28 Islamic celestial globe made in 834/1430–31 by Muḥammad ibn Ja'far 46
- 2.29 Islamic celestial globe, unsigned and undated 47
- 2.30 Unsigned, undated celestial globe 48
- 2.31 Islamic celestial globe, unsigned and undated, engraved in Sanskrit, Devanagari script 49
- 2.32 Demonstrational armillary sphere 50
- 2.33 Unique variant of a demonstrational armillary sphere/celestial globe 51
- 2.34 The constellation Cassiopeia as seen on a globe, with an Arab Bedouin asterism of a camel drawn over her 52
- 2.35 The constellation Auriga as seen in the sky 55
- 2.36 The constellation Auriga as seen on a globe 55
- 2.37 Globe made in 684/1285–86 by Muḥammad ibn Maḥmūd ibn 'Alī al-Ṭabari 56
- 2.38 The constellation Pegasus as seen in the sky 57
- 2.39 The constellation Hercules as seen in the sky 58
- 2.40 The constellations Perseus and Auriga 58
- 2.41 The zodiacal constellations of Sagittarius and Capricorn 59
- 2.42 The zodiacal figure of Taurus 59
- 2.43 The constellations of the Northern Hemisphere 61
- 2.44 Planispheric map giving a selection of northern and zodiacal constellations 62
- 2.45 Constellations of the Northern Hemisphere on an astrolabe plate made in 1065/1654–55 by Muḥammad Mahdī of Yazd 66
- 2.46 Constellations of the Southern Hemisphere on an astrolabe plate made in 1065/1654–55 by Muḥammad Mahdī of Yazd 66
- 2.47 Constellations of the Northern Hemisphere on a planispheric star map printed in Paris about 1650 by Melchior Tavernier 67
- 2.48 Constellations of the Southern Hemisphere on a planispheric star map printed in Paris about 1650 by Melchior Tavernier 67
- 2.49 Hemispheric map of Ptolemaic constellations with the autumnal equinox at the center 69
- 2.50 Hemispheric map of Ptolemaic constellations with the vernal equinox at the center 69
- 2.51 Planispheric map showing southern constellations 70
- 3.1 The celestial spheres from *Rasā'il ikhwān al-ṣafā'* 75
- 3.2 The celestial spheres from the *Ma'rifetnāme* 76
- 3.3 The lunar sphere and the spheres of the four elements 77
- 3.4 Correspondence between the signs of the zodiac, the four directions, and the four elements 77
- 3.5 Correspondence between the signs of the zodiac, the planets, and the four elements 78
- 3.6 The seven *climata* with interspersed place-names 78
- 3.7 The seven *climata* from *Rasā'il ikhwān al-ṣafā'* 79
- 3.8 The seven *climata* from al-Qazwīnī's *Kitāb 'ajā'ib al-makhlūqāt* 79
- 3.9 The seven *climata* from *Kitāb al-bad' wa-al-ta'rikh* 79

- 3.10 The seven *kishvars* 80
- 3.11 Jābirian cosmology: The first four “Hypostases” 81
- 3.12 Jābirian cosmology: One possible combination of the four categories of quality, quantity, time, and space 82
- 3.13 The four cosmic orders according to al-Kirmānī 84
- 3.14 An alternative conception of the four cosmic orders according to al-Kirmānī 85
- 3.15 The universal intellect, the creator, and the construction of the universe according to Nāṣir Khusraw 86
- 3.16 A partial illustration of the relations between the “divine presence” and “permanent archetypes” according to Ibn al-ʿArabī 86
- 3.17 Diagram of the different levels of being from the *Maʿrifetnāme* 87
- 3.18 The “topography” of the day of judgment from the *Maʿrifetnāme* 88
- 4.1 Reference map of the Middle East 91
- 4.2 The Persian *kishvar* system 94
- 4.3 Folio from the Strasbourg manuscript of al-Khwārazmī’s *Šūrat al-ʿarḍ* 97
- 4.4 Folio from a manuscript of al-Battānī’s *Zīj al-ṣābiʿ* 98
- 4.5 A comparison of some of the coordinates of al-Khwārazmī, al-Battānī, and the *Kitāb al-malḥamah* (Yāqūt) with those of Ptolemy 99
- 4.6 The seven-climate system according to three Arab writers, showing a comparison with the Greek system 102
- 4.7 Suhrāb’s diagram for a world map 104
- 4.8 The island of the jewel, Jazīrat al-Jawhar, by al-Khwārazmī 105
- 4.9 The world ocean, al-Baḥr al-Muḏlim, by al-Khwārazmī 106
- 5.1 Reference map of the Islamic world at the time of the Balkhī school 109
- 5.2 Stemma of the texts of the Balkhī school 111
- 5.3 Possible stemma for the maps of the Balkhī school 113
- 5.4 Kirman according to Iṣṭakhri I 116
- 5.5 Kirman according to Iṣṭakhri II 116
- 5.6 Modern Kirman and surrounding area 117
- 5.7 The Arabian Desert pilgrimage routes 117
- 5.8 Arabia according to the Balkhī school, Iṣṭakhri I 118
- 5.9 Arabia according to the Balkhī school, Iṣṭakhri II 118
- 5.10 Arabia according to the Balkhī school, Ibn Ḥawqal I 119
- 5.11 Arabia according to the Balkhī school, Ibn Ḥawqal III 119
- 5.12 The development of the Mediterranean in maps of the Balkhī school 120
- 5.13 The development of North Africa and Spain in maps of the Balkhī school 121
- 5.14 Egypt according to the Balkhī school 121
- 5.15 The world, Iṣṭakhri II 121
- 5.16 The world, Ibn Ḥawqal I 123
- 5.17 Arabia according to al-Muqaddasi 124
- 5.18 The Arabian Desert according to al-Muqaddasi 124
- 5.19 Al-Maghrib following Iṣṭakhri I 125
- 5.20 The Indian Ocean in the manuscript of Aḥmad (or Muḥammad) al-Ṭūsī 125
- 5.21 Map of Kirman from a manuscript attributed to Naṣir al-Dīn al-Ṭūsī 126
- 5.22 Map of Arabia from a manuscript attributed to Naṣir al-Dīn al-Ṭūsī 126
- 5.23 Map of the Indian Ocean from the British Library manuscript 127
- 5.24 World map from the British Library manuscript 127
- 5.25 Balkhī world map with climate boundaries 128
- 6.1 Stemma of later Islamic maps (A.D. 1000 onward) 138
- 6.2 The Nile from the Ibn Ḥawqal III set of maps 139
- 6.3 The world from the Ibn Ḥawqal III set of maps 140
- 6.4 Al-Birūnī’s sketch map of the distribution of land and sea 142
- 6.5 World map from al-Ḥarrānī’s *Jāmiʿ al-funūn* 144
