MUSIC
FROM CHICAGO
Beethoven’s Symphonies
Nine Approaches to Art and Ideas
Martin Geck
Translated by Stewart Spencer

Offering refreshingly inventive readings of the work of one of history’s greatest composers, this book shapes a fascinating picture of the symphonies as a cohesive oeuvre and of Beethoven as a master symphonist.

“Extremely readable and thought-provoking.”—Neue Musikzeitung, on the German edition

“This aphoristic, scholarly essay . . . offers—precisely because every answer leads to new questions—rich inspiration for hearing Beethoven anew.”—SWR2 Cluster, on the German edition

Beethoven for a Later Age
Living with the String Quartets
Edward Dusinberre

“Gives the reader a personal sense of what quartet playing is really like, how much it demands, and how hard even the best players have to work to achieve a communal interpretation of a single phrase, a movement, an entire Beethoven quartet. . . . Dusinberre’s book will stand on the shelves with those of other performers who have written about their experience in the rehearsal room and concert hall.”—Lewis Lockwood, New York Review of Books, and author of Beethoven: The Music and the Life

The Trouble with Wagner
Michael P. Steinberg

“Unlike any other composer, Wagner continues to fascinate. Michael P. Steinberg has added to the vast literature a thought-provoking look at the composer from the perspective of not only history and criticism, but also the challenges of mounting a contemporary production. Through Steinberg’s uncommon grace and learning, readers will encounter why Wagner is still with us today as a force in the arts and culture.”—Leon Botstein, music director and principal conductor of the American Symphony Orchestra

Nightingales in Berlin
Searching for the Perfect Sound
David Rothenberg

Rothenberg takes us to the urban landscape of Berlin—longtime home to nightingale colonies where the birds sing ever louder in order to be heard—and invites us to listen in on their remarkable collaboration as birds and instruments riff off of each other’s sounds. Through dialogue, travel records, sonograms, tours of Berlin’s city parks, and musings on the place animal music occupies in our collective imagination, Rothenberg takes us on a quest for a new sonic alchemy, a music impossible for any one species to make alone.

Hearing Beethoven
*A Story of Musical Loss and Discovery*
Robin Wallace

“Wallace provides a new and unique perspective on Beethoven’s deafness. . . . The book both reads like a novel and provides vivid insight into how Beethoven confronted the loss of a composer’s most important asset. In weaving the personal and the scholarly, Wallace has created an intimate account of how Beethoven’s deafness can be found in his music as well as how it shaped him as a person. In fact, in this book we see the human side of Beethoven in a way that has never before been portrayed.”—Michael Broyles, author of *Beethoven in America*

The Silent Musician
*Why Conducting Matters*
Mark Wigglesworth

*The Silent Musician* deepens our understanding of what conductors do and why they matter. Neither an instruction manual for conductors, nor a history of conducting, the book instead explores the role of the conductor in noiselessly shaping the music that we hear. Writing in a clever, insightful, and often evocative style, world-renowned conductor Mark Wigglesworth deftly explores the philosophical underpinnings of conducting—from the conductor’s relationship with musicians and the music, to the public and personal responsibilities conductors face.

Robert Schumann’s Advice to Young Musicians
Edited and with Commentary by Steven Isserlis

“Isserlis takes Robert Schumann’s *Advice to Young Musicians* a sentence or so at a time, offering explanation and commentary that let Schumann talk directly to us, in an open and somehow contemporary manner. The advice is all superb, but, as Isserlis notes, it can seem overwhelming. Schumann does recommend that his young musician break up study with walks and poetry, but executing all his recommendations would leave little time for the rest of life.”—*Times Literary Supplement*

A Portrait in Four Movements
*The Chicago Symphony under Barenboim, Boulez, Haitink, and Muti*
Andrew Patner
Edited by John R. Schmidt and Douglas W. Shadle
With an Introduction by Douglas W. Shadle
With a Foreword by Alex Ross

The Chicago Symphony Orchestra has been led by a storied group of conductors. And from 1994 to 2015, through the best work of four of those maestros, classical music critic Andrew Patner was right there. This book assembles Patner’s perceptive reviews for the *Chicago Sun-Times*, as well as transcripts of his remarkable WFMT radio interviews with these colossal figures. Douglas W. Shadle’s introduction provides a concise history of the CSO from its founding until the arrival of Daniel Barenboim.

Announcing a New Series

New Material Histories of Music

Series editors James Q. Davies and Nicholas Mathew introduce a new series that sets out to embrace the many accounts of materiality that are invigorating music studies today. It seeks to connect sound, that notoriously elusive object of study, with the more robust conditions of ecological and social life. In every case, what counts as the “material” aspect of any sonic practice changes, along with disciplinary emphasis, geographic focus, and ethical framework. See more at http://bit.ly/UCPNMHM.

Musical Vitalities
Ventures in a Biotic Aesthetics of Music
Holly Watkins
“A post-humanist organicism? A formalism fit for the Anthropocene? Watkins shows that these are not contradictions—far from it. Musical Vitalities makes a timely case for the contemporary relevance of Hanslick, Schopenhauer, and Darwin. This is the urgent aesthetic manifesto for eco-musicology that we have been waiting for.”—Alexander Rehding, Harvard University

Singing in the Age of Anxiety
Lieder Performances in New York and London between the World Wars
Laura Tunbridge
 “[The book] doesn’t concentrate on what are usually thought of as the main musical issues of the twentieth century: the developments of big institutions, modernism, and popular music. Its interest and achievement are to show how a quintessentially Austro-German art form. . . . was transmitted into the late twentieth century and beyond. . . . The Spirit of This Place
How Music Illuminates the Human Spirit
Patrick Summers

In the politically fraught world we live in, is the “felt” experience even something worth fighting for? In this soul-searching collection of vignettes, Patrick Summers, artistic and music director and principal conductor of the Houston Grand Opera, gives us an adamant, impassioned affirmative. Art, he argues, nurtures freedom of thought, and is more necessary now than ever before.

Deep Refrains
*Music, Philosophy, and the Ineffable*
Michael Gallope

“Lucidly presented and penetratingly insightful, *Deep Refrains* reads the most important twentieth-century reflections on music’s ineffability—on the complex ways that music contributes to verbal conceptualization precisely by exceeding conventions of conceptual reasoning. Gallope’s compelling and highly intelligent interventions draw out the ramifications of musical material for contemporary thought, signaling music’s promise without neglecting its subtle perplexity: A resoundingly masterful accomplishment in every sense.”—John T. Sonic Flux
*Sound, Art, and Metaphysics*
Christoph Cox

“*Sonic Flux* makes a passionate and finely detailed case for a materialist view of sound and gives sound art its own place in the historical arc of music. Christoph Cox ties together Nietzsche’s conception of the Dionysian and Artali’s theories of territorialization to outline something like a ‘Tao of sound’—a ‘field of fluxes’ that exists before and outside humanist models of signification and narrative. *Sonic Flux* returns sound to itself, and frees the act of listening from any need to replicate the tendencies of reading or looking.”—Sasha Frere-Jones

Good Music
*What It Is and Who Gets to Decide*
John J. Sheinbaum

“Sheinbaum illuminates the musical attributes that have traditionally been used to define masterpieces in the Western classical tradition and demonstrates that they do no such thing. Through detailed analyses of well-known compositions in both the classical and vernacular traditions, he shows that such qualities as seriousness, organic unity, and originality, while often positive traits, cannot and do not serve to isolate classical compositions from popular musics, nor are they sufficient to the identification of masterpieces within either tradition. This is an important and useful book and a must-read for anyone still tempted to declare the overarching superiority of a single composer or style.”—Ellen T. Harris, MIT

Opera and the Political Imaginary in Old Regime France
Olivia Bloechl
“This original and well-argued book offers a fresh approach to tragédie lyrique that rethinks the political meanings available to the genre’s publics. . . . Bloechl creates an interpretative framework focused. . . . on the genre’s role in producing a French political imaginary that linked gloire and efficacy. The resulting interpretations of deftly chosen examples illuminate not only the political functions of the genre, but the relationship of artistic practice to practices of nonstate power.”—Suzanne G. From Northern Skies to Fields of Gold

Paul Carr

“Carr’s carefully researched study of Sting is clearly written out of deep appreciation for the man and his music, but it demonstrates why even non-fans should get to know him. Rather than focus on anecdote and personality, the book gets to the heart of what makes Sting tick musically without being drily academic. It negotiates well the seeming contradictions of this Geordie ‘world citizen,’ providing fascinating detail about aspects of Sting’s sound, how it signifies, and how it has been achieved, leading to a rounded picture of a major musician.”—Allan F. Moore, University of Surrey

*Global Citizen*

Paul Hegarty

“So much more than a biography of the Genesis founder and world music pioneer, Hegarty’s study focuses on Gabriel’s art taken as a whole, and what it tells us about being in a particular place at a particular time, be it Seventies England, Eighties New York, or the global mixing pot of Womad.”—Choice Magazine (UK)

Chicago Studies in Ethnomusicology

The Tango Machine
Musical Culture in the Age of Expediency
Morgan James Luker
“Luker addresses many aspects of musical life that have all too often been neglected by ethnomusicologists, including the roles of NGOs, diverse kinds of media companies, government policies, and international cultural heritage projects. His broad insights, based on a rich multilevel ethnography of tango music in Buenos Aires in the twenty-first century, have implications for music throughout Latin America and beyond.”—Anthony Seeger, University of California, Los Angeles

2016 216 p. 6 x 9 3 line drawings

Tigers of a Different Stripe
Performing Gender in Dominican Music
Sydney Hutchinson
“Hutchinson pushes the theoretical boundaries and potential of gendered music scholarship in new and highly productive ways. Along the way, she introduces us to her delightfully quirky and passionate collaborators in such a way as to make them and their musico-political acts come alive. Pulling together years of study and performance, as well as careful and sophisticated theory, this book will become a staple for courses in ethnomusicology and anthropology . . . . This is a truly wonderful book!”—Ellen Koskoff, author of A Feminist Ethnomusicology

Song Walking
Women, Music, and Environmental Justice in an African Borderland
Angela Impey
“This fine book traverses the landscape of conservation politics, land rights, and apartheid history. Its analyses of harsh struggle and vexed memory are balanced by Impey’s quiet love of the land and by the extraordinary women who walk and sing through her text. Scholars of development and of the aural arts will especially appreciate its achievement.”—Louise Meintjes, Duke University

Flip the Script
European Hip Hop and the Politics of Postcoloniality
J. Griffith Rollefson
“Rollefson’s lively readings of performances help us to hear hip hop music as a postcolonial art and practice that can lead us to a more equitable and just future. An inspiring and hopeful book.”—Ellie M. Hisama, Columbia University
